

Christopher Oehri

Partner – Advisory IT & Digitalisation

Role

Christopher Oehri is a Partner and heads the Advisory IT & Digitalization department at Grant Thornton in Switzerland and Liechtenstein.

Professional experience

Christopher has been working in IT auditing for over 20 years and has been managing audit and consulting engagements in the financial and industrial sectors for more than 10 years.

Before joining Grant Thornton in April 2020, he worked for a Big 4 company in Switzerland and Liechtenstein for 15 years. He has been leading the Advisory IT & Digitalization team for 5 years and specializes in conducting IT audits and consulting assignments across all industries. In addition, he has been focusing on the preparation of Non-Audit Assurance reports according to ISAE 3000/3402 in a wide range of outsourced areas for more than 10 years.

Professional qualifications and memberships

Christopher has a bachelor's degree in communication and computer science and is CISA (Certified Information System Auditor). He is also a member of the EXPERTsuisse IT/IT audit commission and president of the Business Angels Club Liechtenstein (BACL).

Languages

In addition to his native German, Christopher also speaks fluent English.
